I Don't Think the Banks, Hedgies, SEC, Wall Street Elite, Nor The Government Realize Our/Retails Perspective/Position regarding GME;

GET RICH OR STAY POOR TRYING!

Most of us are already poor so, it's just another day. We can and will hold until the Market is fair, the short positions are legally closed (by purchasing shares required to close on lit exchanges), our trendies are rightly secured and the criminals are wearing their shiny silver bracelet chains.

We didn't create their messes. Apes discovered their scam, caught on to their game and interestingly enough, did what so many successful investors before us have done.... LEGALLY BUY & HOLD. Nothing more, nothing less. We've done nothing illegal nor shady and we have them by the short hairs. That's literally all it took and yet, they say we're screwing up the system.

They became so arrogant and comfortable in their market manipulation and corruption that, not only did they think they'd never get caught, they were certain they could never lose! Welp..... Surprise Muthafuckas!

Some people should've just been captured in a condom.
