If you're here, you probably like our favorite stonk, GME. Or you may be interested to understand why GME has gained traction with nearly every financial news outlet at some point over the year 2021...

I want to layout what I believe is the best path forward for this community. Although everyone is an individual investor I believe the following things will help everyone here. The choice is yours whether or not to abide.

Buy the stock —■—> \$GME

Direct Register Shares —■—> in YOUR NAME

Hold \$GME —■■—> with Computershare

Buy cool shit —■—> at GameStop

Leave honest reviews —■—> it helps

There's so much more I wish to discuss but that's the basics for now. Feel free to add some of your own recommendations in the comments ■

I love this community and each individual investor inside of it. Just want to see us all succeed.
