I use the webull's Desktop App to watch the stock during the day while i'm working.

The heatmap feature shows a finite set of industries, which change from day to day..

About two weeks ago, they removed two industries.. Banking Services & Investment Banking services.. I found this suspicious..

Now, after two weeks, they are letting me see Banking services again.. hahaha

Everything is Fine! Banks all looking good, move along.

Edit: the category is now gone again. 12/15 of the banking stock I follow are in the red.. Webull trying to influence sheeple? Lol
