waking up flipping channels and the bloomberg rubenstein / griifin interview from 2019 is on pbs at 8:30 in the morning...had to watch a few minutes but couldnt bear more than that....nauseating how cocky this guy is, and his beady eyes tell the whole story. of course no mention of GME as it hadnt happened yet, but rubenstein gushing on how wonderful this man is. kenny brags about how much money he is returning to the shareholders and pension funds etc because his system reduces the bid ask spread, money that would normally go into "greedy wall st's pockets"...no - now it goes into YOUR pocket. amazing how many are swallowing his nonsense, all the while not questioning where his billions come from
