I saw on the news the noise being made on Wall Street when the buy button was taken away. The best and only good thing that MSM did that day (or ever) was bring GME to everyone's attention. Unfortunately I listened to their lies and thought I missed the boat with everyone else but a few months later I said "fuck it" and bought in at the \$200's and it's been a great ride ever since. Thank you all for being there and providing great DD. This is going to be one hell of a story to tell when the time comes. Shorts haven't closed and Hedgies R Fukt!!!!!!
