I'm Jonah Tulis and I directed "GameStop: Rise of the Players." My new film documents the epic series of events that changed Wall Street forever, featuring exclusive access to the original players who lit the fuse on a historic amateur investor uprising. Spotlighting the human side of a sensational business drama, "Gamestop: Rise of the Players" is a David and Goliath story of this band of contrarians who bucked conventional wisdom to bet on themselves, their own research, and a business that Wall Street had given up on, and in the process formed life-long friendships and changed their lives and the lives of their families for years to come.

Prior to directing this film, I directed "Console Wars," the first original documentary from Legendary Pictures and Paramount+, which takes viewers back to 1990 when Sega, a fledgling arcade company, assembled a team of underdogs to take on the greatest video game company in the world, Nintendo. It's a lot of fun and worth checking out as well.

Check out the trailer here for "GameStop: Rise of the Players":
