[Stable Coins "R" Us](https://youtu.be/CRSe2KHxF7I)

Hey guys, I'm back with another short story to inform!■ This time focused on T3ther and cry-p-to and how Hedgefunds have used it to maintain leverage in their GameStop positions with their massive liquidations from time to time.■ I go through how they pump these cry-p-to s through their stable coins like tether, which are back by junk bonds like Evergrande, and the details related to it. Hopefully this video can inform and entertain. I make most of the art/music. Hope you enjoy!■
