All my shares were purchased directly from Cmpshare (or will be, I submitted money and it takes a few days). I previously was with Robinhood until this group schooled me on how they did things at the hood. I sold my entire GME position at Robinhood when price was up a week and a half ago. I have now doubled down with Cmpshare.

QUESTIONS: Cmpshare says my shares estimated purchase date is 7/15. Is that normal when buying from them (I thought stock purchases was instant during hours market is open)?

It also states estimated settlement date 7/19?

Is 7/15 past deadlines for split or dividend and all upcoming goodies?

Do I still need to register GME shares purchased directly through Cmpshare?

Thanks guys!! Nurse Ape riding 🐼 to the Moon!
