I will expose the arguments quick :

1) RC buy 10% BBBY and begin the turn around of an heavily shorted companie in March 2022 , in his first offensive move against shorts.

2) Reaction : Shorts and their payed bitches on MSM fight it : " Crazy move" , "doomed to failure"...bla bla bla ,in order to maintain their classic permanent shorting strategy of the stock. (accumulating shorts on top of shorts linearly without end until submission)

3) Variation : SHFs began to notice meme stock retail increasing rally on BBBY , then , create alternate strategy on it : MAKING a Retail trap on BBBY:

a)Create the necessary conditions to increase rally on BBBY by pumping it (price manipulation) and by advertising in their MSM prostitutes an old 10% RC's buy move from 5 months ago in March presenting it like the probable cause.

b)Waiting for big FOMO rally to come ,making retail think a) is a RC's strategy against the shorts.

c)Using it optionally as a temporary hedge

d)When FOMO is done and price has organically finished it's second ascension (after the fake one) , dumping the stock , taking all retail money , and potentially , liquidating a great numbers of retail traders in the process that invested on margin with all their GME portfolios in theirs accounts and/or sold some other meme stocks they owned to buy BBBY during the induced FOMO.

4) RC's counter :IMMEDIATLY SELL ALL HIS STOCKS ON BBBY to break the fake pumped price before it creates a FOMO , to :

a)Protect it's GME's shareholders , signaling them that BBBY is not the Mother Of All Short Squeeze play worth of investing and was on the verge to be used as a retail FOMO trap manipulated by SHFs and MSM cause they did catch increased interest from retail trader on this stock due to RC's 10% stakes (Alternative GME) and formulated a trap based on it.

b)Optionally exposing the Price Action as fake cause got tanked several days after RC sell.

c)Optionally fucking their temporary hedge strategy on BBBY during the FOMO , or any kinds of temporary strategies they had planned on BBBY during this period.

5) SHFs immediatly counter 4) by falsely accusing it in their MSM prostitutes of being a "Pump and Dump hurting Retail" , when actually it was precisely their strategy (3)) from the beginning but got countered (4)). In order for them to at least weaken the trust between RC and his shareholders base for the future.
