Seen this far too many times. Right before earnings a DIP, then after earnings Spike. I have been MIA patiently waiting for the moon. Being on here 24/7 caused my health to decline. I took up the gym and started enjoying my life while HODLING. Like the title states been HODLING since 12/30/2020. I gave sneks to many of you because I was gonna take a break from looking at GME every day. I now look at GME once in a while and if I don't see moon then I don't bother looking, I just buy and that's it. Do not fear, remember that time gme dropped to \$38 and then massive spikes up to the \$350+ range? Well I remember so even if it goes lower I'll keep buying. -P.S many might remember me as Snek Guy ■
