I used the chat feature from my broker to drs some gme for my first time.

It went so fast. I literally said I want to drs x shares gme, the guy replied and said : OK I understand you want to drs x shares gme. Correct?

I said yes

He said: is FIFO OK?

I said yes

He comes back with : x shares of gme have been DRS'd. Confirmation number blah blah blah

This took under 5 minutes.

I guess I just want reassurance that all I have to do is sit and wait for computershare to mail me? Or need I take some action?
