These are too good of a deal to pass up. Max pain has GME lower (maybe) in a few weeks but I'm just in a mood to buy. The hit pieces on Ryan Cohen in some of these subs are pretty amazing, and stupid. Whatever the reason for the ass falling out of that towel-based stock, I don't think it was RC selling off. More like someone maximizing the perceptual impact of RC selling off. There's way more to this that we'll ever know.
