Had to pre-order my copy of the GREATEST racing game of all time, Gran Turismo. Of course it's from GameStop.

With GT7 in da house I may never get another bit of work done, ever!

Seriously, this is some sick shit when it comes to a racing game.

Probably going to be forced into buying a huge ass hi-def tv to play this on... of course, from GameStop.

Check it out if you're into racing games.
