Superstonk, we do have a problem. Ive been lurking in the shadows since jan 2021. The number one thing that drew me in, was fellow apes kindness, willing to teach, funny jokes & etc. Now days if you have a diff point of view then you're automatically considered a bot, shf or its fud. What happen to the good ol days when ape loved ape, ape helped ape? Do ya'll really think superstonk will draw in new investors when you make newbs feel like a moron for asking a question? I could care less if you're DRS'n, hodling or buying options and neither should you! We need everyone we can get to apply buying pressure from every direction. Just because you have conviction in DRS doesn't mean you have to force it on others. Let them make their own choices.

Ever wonder why we don't have God tier DD anymore? Look at the past and what we've done. We've had plenty of awesome DD but everytime someone writes awesome DD, someone somewhere comes up with some reason that the writer of that DD is paid by hedgies or banned for some reason. Ya'll make the best DD writers the villians everytime! Who the hell would want to write DD. Knowing that they'll end the villian? Ape should love Ape and help ape. If we continue on this path then Superstonk will soon be Superstunk.
