I was just thinking...

We are in Beta for the gamestop nft marketplace, the gamestop wallet version is (currently) 0.6.0; meaning, it's still not (full) production.

As the sub-version keeps counting up, it keeps getting closer to version 1.0.0
Can't wait to see what we get on version 1.0.0!

only 0.4.0 to go!
(Hopefully they don't go to version 0.xx.0)
