this announcement is to remind you to be on the lookout for imposter Pulte accounts. the only real one is u/RealPulte. there have been multiple fakes reported that have slightly different spellings and the same profile pic. THEY ARE NOT REAL! why someone would do this just to troll the GME community is beyond me.

u/realpulte gave me permission to include his name in this post. He too is tired of seeing these imposter accounts crop up. at the same time, we will not be approving him as a user here. if everyone else has to wait for their account to be 30 days old then so should he. regardless of whatever kind of Twitter clout he has. see you apes on the moon!
