Welcome to 100+ days of ~~summer~~ broker guides!

It's clear that everyone, even GameStop fanatics, are finding and learning about Direct Registration and the DRS at different speeds. So I'm hoping this series of posts helps to raise more awareness that it is possible, and it's even easier than it was at the start of 2022!

If you're looking for a guide for your broker, leave a comment with the following command to summon the DRSGME wizard:

!DRSGME: Bolero!

Just replace Bolero with your broker's name. If you can't find your broker guide, let me know and I'll see what I can dig up!

Day 10, Guide 10: Bolero

Bolero is a European broker that cannot DRS transfer, so you have to transfer to a broker that can DRS first. Popular options have been brokers such as Revolut, or IBKR. Revolut can DRS for free and IBKR charge a small fee of \$5. Both have been reliable at Direct Registering shares.

Guides for both of these brokers are available, and you can summon a guide for them using the DRSGME wizard.
