For all the apes out there who can't find the zen we always hear talked about.

Who can't help but look at the ticker first thing in the morning. Who go to sleep with /r/GME and /r/Superstonk hopium to get through the night. Who manage stress, anxiety, depression. Who aren't just waiting for a big paycheque but who are waiting for freedom.

MOASS doesn't bring money, it brings time. Time to work on ourselves. Time to work on mental health when we're not rushed between work, shopping, cooking, family duties, chores and maybe getting 8 hours of sleep if we're lucky.

We're not all made for this culture. Not made for the rat race and MOASS brings freedom to live at the pace we need to. Freedom to pursue creation, whether that be art, furniture, tools, crafts, electronics. Freedom to express ourselves in ways that can't be measured by productivity and efficiency. Our slavery culture has warped what it is to be a person and it's time to rise above it.

Whatever happens, however long it takes, we're in this together and just remember you have at least one person in your shoes, feeling your stress, your anxiety, your depression. Apes together strong. Buy, HODL, DRS.
