## 6. PAYMENT FOR ORDER FLOW

Pursuant to SEC Rule 607, DriveWealth is required to disclose its payment for order flow practices. DriveWealth determines where to route order based on a number of factors including the size of the order, the opportunity for price improvement and the quality of order executions, and decisions are regularly reviewed to ensure the duty of best execution is met. In exchange for routing certain customer equity orders to exchanges, electronic communication networks, or broker-dealers during normal business hours, DriveWealth may receive monetary rebates. The amount rebated varies depending on the agreement reached with each market venue and will be furnished upon request.
