## NFT Divided or Other "MOASS Catalysts" are for dummies. There is only one way to kill shorts.

Dont know how many times im going to need to say this. YOU WILL NEVER GET AN NFT DIVIDEND.

The legal ramifications of this are mindboggling and is not something GameStop wants to deal with during a company transformation.

## Forget it.

Now massive NFT revenue, thats a real catalyst.

Slowly but surely Superstonk is begining to see that fundamentals matter. There will be only on thing that can ignight MOASS, the same thing that TSLA did to shorts. They deliver, deliver, deliver.

Years long squeeze.
