Title: Financial analyst disses the NFT marketplace. He totally knows what he is saying, he's a political

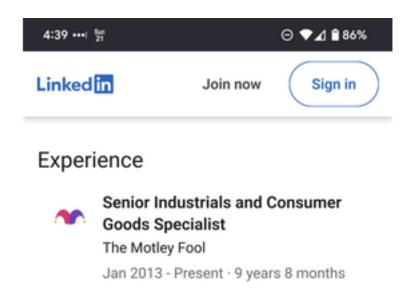

science major with no financial work experience!

KEY POINTS

- GameStop's new NFT marketplace got off to a surprisingly good start, despite this year's "crypto winter."
- However, weekly NFT transaction volumes have plummeted from over \$7.5 million at launch to just over \$1 million now.
- GameStop needs the NFT marketplace to grow tremendously just to break even, let alone generate meaningful profits.
