It's the weekend so you know I'm bored and I start doing my digging. Citadel has a new trend I have found. They have bought shares in 7 companies this month and they all have the same trend!!!! They are all being SUED!!! Also 6 out of 7 were formed in 2020!!! Nothing strange about that huh. I need someone with more wrinkles than me to dig into this and see what ole Kenny boy been up too. Below is a list of the companies they have bought ownership shares of

Forest Road Acquisitions Corp (2020) Bought 5/4/21 date reported 5/14/21

Gores Metropoulos II Inc (2020) Bought 5/4/21 date reported 5/14/21

Thoma Bravo Advantage (2020) Bought 5/4/21 date reported 5/14/21

Northern Star Investment Corp. II (2020) Bought 4/29/21 date reported 5/10/21

Marquee Raine Acquisition Corp. (2020) Bought 4/28/21 date reported 5/10/21

Ajax I (2020) Bought 4/29/21 date reported 5/10/21

Chardan Healthcare Acquisition 2 corp Bought 4/23/21 date reported 5/03/21

Just type in lawsuit after the name of each company listed and a few of them are even with the same law firm!!!!

THIS IS JUST FROM MAY!!! I'm sure If I looked into the April purchase they are all companies made last year and currently being sued for "Board of Directors violated securities laws and/or breached their fiduciary duties to the Company by 1) Failing to conduct a fair process, and 2) whether the transaction is properly valued"

Seems like it's always something fishy around Kenny.

TLDR - Citadel is buying into companies founded in 2020 and being sued. Nothing to see here lol these are smart investments for a company waist deep in shit!!!!
