first off?

LET"S GO GAMESTOP!

there, had to get some rockets out. IM EXCITED AF. If they couldn't afford us last year, they sure as shit can't afford us THIS YEAR!

2022 is OUR year. We gave them one year of our lives. ONE. FUCKING. YEAR. I made this for everyone to have a keepsake of the past year we all sat around and hodl'd thru.

Players have been doing giveaways everywhere with these.

If you don't have an NFT yet? This can totally be your first one. You've already paid for it with your time frens.

I minted 10m. one for each shareholder. >:)

If you got a massive following I can always sand a bigger stack. 6,000,000 left in the supply.

These are for us, by me. their value is only \$2 because its the lowest I could set, but the good news is its value has nothing to do with your fake ass money. :)

This nft is realer than your money, because i made it myself and its got DEEPFUCKINGVALUE built right into the description. <3 that guy.

Share this post wherever u like, that is a home for us. I simply don't have time as the creator to do a social media campaign. so post here, post there.

I hope I did good enough for you guys with this one. I tried.

These are on the polygon network, so until LRC > polygon bridge, metamask wallet is preferred and then when the bridge is created, just transfer the NFT from IvI 2 wallet to IvI 2 wallet. I'm not perfect. I'm learning n jus simply having fun :)

get loud. give back. game on.

POWER to the CREATORS
