Speculation - The FED is paying Blackrock \$750M a year in FEEs..... This tax payer money that was not properly disclosed to the people in anyway.

Hello Apes ....

If we discover that the FED paid Blackrock \$750M in FEES this year.... how would you feel? I believe, that Blackrock earned billions from the FED, and used this money to buy up assets. Thats why no one can afford a house.

The shares are fake - its my speculation this is a Ponzi scheme that got out of hand - It got big, real Big. Maybe they should have slowed down once they started selling Fake IOU's all over the globe.

Blackrock has trillions in assets, but its not sustaintable without the invisible FED hand that has been keeping the scam going... since 2008.

## So what the hell am I talking about?

I believe - the FED is using the Long Bond to
