Hello fellow apes! January ape here and long time lurker. I check in every now and then but I am of the mindset that "I've read the DD, I know what I know, just buy and hold". I know there are many like me. I just wanted to take the time to let yall know that the zen army is real! Which is kinda crazy when you think about it. Think about how many of us are active on reddit talking about gamestop. I'm willing to bet there are double that who are zen.

Recent events really sparked my interest. Specifically the DRS shares from IRA accounts that got reversed. I had much FUD about DRS and just kept buying and holding in my fidelity account.

I HAVE FINALLY COME TO THE CONCLUSION THAT DRS IS THE FUCKING WAY! We have now broken their system twice! First was the buy button being turned off and now it's DRS reversals!

I LOVE EVERY DAY OF THIS JOURNEY WITH ALL YOU BEAUTIFUL IDIOTS ♥■■■
