Linked Post Content:

Shill1: elbows sleeping Shill2

Shill2: WHAT?

S1: He's here dummy!

S2: shit... okay, we got this dude! Just sit, nod, and laugh at everything he says.

KG: You two must be Shill1 and Shill2 | *stares intensely without blinking*

S1: Yes, sir..h-h-how was your flight, sir?

KG: Sufficient. Are we ready?

S2: Yes sir, straight through this door, sir.

KG: So which one of you muppets are going to talk me through the plan?

S2: That'll be me sir.

KG: Well, WHAT ARE YOU WAITING FOR

S2: No problem at all Mr Griffin, it's our pleasure! We've been stoked all week to run you through Operation FAPE.

So we know that you know what's already gone down over the last few months, so we won't bore you with any of that. We're gonna dive right into the thick of it.

How we conducted the operation was in 4 phases:

- 1. FINDING CHINKS IN THE ARMOUR
- 2. ASSESSING IMPACT & ACTIONS
- 3. PLAN COUNTER ATTACK
- 4. EXECUTE PLAN

'FAPE - Fuck APEs', hahaha, do you get it sir? Hahaha | *laughs nervously*

KG: Of course I get it! It's hilarious ha ha ha ha | *robotic maniacal laugh*

S2: Yes!!! I knew you'd like it! Sir honestly, you're totally awesome! I don't get why all those negative Glassdoor reviews you receive, those people are just, errr, THEY'RE JUST LOSERS!! Yeah, losers, hah!

KG: Ha ha ha, yes you are right Shill2, they ARE LOSERS! Ha ha ha

S2: Anyways, back to it, as part of phase 1, we looked at where all of our weaknesses were, the chinks in the armour so to speak. This took quite a while actually because well, you know... we quote-unquote *'broke so many laws'*.

KG: Citadel. Has. Never. Broken. A. Single. Law. [The Chinese got it wrong back in '15](https://www.scmp.com/business/markets/article/1846104/us-hedge-fund-citadel-banned-share-trading-shanghai-account) you fucking nincompoop.

S1: Hahahahaha, Mr Griffin just said poop hahahahahahaha

KG: QUIET DINKUS! Shill2, we step around laws, we don't break them! They're not lamp posts! | nostrils flare, *breathes heavily*

S2: Oh oh right, yeah, we "'stepped around so many laws', that's a good one Mr Griffin, I like it.

S2: *Looks over at S1 and the rest of the Shill Team |* GUYS, WE'RE NOT BREAKING THE LAWS OKAY, WE'RE STEPPING AROUND THEM. MAKE SURE TO CHANGE ALL OF OUR REPORTING DOCUMENTS TO REFLECT THAT!

S2: Right, where were we? Oh yeah, for Phase 1 we looked at all the areas where we could be weak, the major ones included:

- 1. Apes could start a PAC and begin donating to their reps to influence policy that's unfavourable to us
- 2. They could report our actions to the [Manhattan District Attorney](https://www.manhattanda.org/) for [White Collar](https://www.manhattanda.org/our-work/white-collar-crime/) crime
- 3. They could report to us to the [FBI for White Collar](https://www.fbi.gov/investigate/white-collar-crime) crime
- 4. They could get the Whitehouse on their side
- 5. They could start a [change.org](https://www.change.org/decision-makers/u-s-house-of-representatives) petition
- 6. They could work with a PR Agency and start a media campaign against us
- 7. They could demand the GameStop board do something about the artificial share price
- 8. They could file a class action against us just like they did with Robinhood
- 9. They could put political pressure on us from other countries
- 10. If any of them have \$401ks they could demand that their Pension Fund withdraws the entire allocation to us
- 11. They could demand a congressional and or senate investigation, not hearings, but investigations
- 12. One of your family members or friends could snitch on you.
- 13. They could report us to DOJ via the [U.S. Attorney's Office for the Southern District of New York](https://www.justice.gov/usao-sdny)
- 14. Someone who works for us could blow the whistle

The list goes on Mr Griffin, you can tell we've thought about this a lot.

Then we assessed the impact each of these weaknesses could have on our business. It wasn't pretty sir, we were exposed left right and centre. Honestly if just one of these got through, you, me and the boys would've been behind bars in no time sir.

KG: I'VE NOT DONE ANYTHING WRONG YOU MORON!!!! | *THROWS LAMP POST*

S2: SORRY SIR, I KNOW I KNOW, YOU'VE NOT DONE ANYTHING WRONG. ALL THE MANIPULATION WAS BEING DONE BY ME AND THE BOYS. YOU DIDN'T KNOW ANYTHING. SORRY SORRY!!

B-B-Boys, can one of you pick up the lamp post? Thanks.

N-N-Next is Phase 2, assessing the impact and how they could do it.

#1. Apes launching a PAC

This would be incredibly dangerous to us sir. Some of these apes are living day to day, but many of them aren't. They have cash, cash to spend.

If apes launched a PAC they could begin funding politicians which are on the fence about financial market reform and get them on the side of retail. Specifically, their PAC could demand:

- * More transparency in financial markets
- * Hourly reporting of short and long positions would severely limit our ability to hide our positions
- * HARSHER punishments for breaking trading rules
- * Say goodbye to slap on wrists sir and hello to slippy soaps and towel whips.
- * FASTER investigations
- * The usual 3-5 year SEC investigation cycle allows us to continue our dastardly deeds for way longer than we really should be able to
- * A permanent end to dark pools
- * The stock would rise faster than my pp on \[xxx\] due to the stupidly high buy volume by retail
- * Complete separation of MM and Hedge Funds forcing us to sell off one of them
- * Almost certainly nobody would buy the HF business due to the losses it's incurred, so we'd be forced to offload the MM or cover our short positions before selling off the HF.
- * Same-day settlement cycles
- * T0 would terminate us faster than the T-800 sir.
- * Synthetic shares are completely banned as they [suppress real price discovery](https://www.euromoney.com/article/b1320xkhl0443w/naked-shorting-the-curious-incident-of-the-shares-that-didnt-exist)
- * Sir, the entire market would collapse if this happened. We can't let it happen at any cost.
- * And last but not least, a complete and total end to fucking SWAPS!
- * Err sir, you don't want me to say how fucked we'd be if this happened. Put it this way, if you fucked your wife like that, she might have forgiven you for the bedpost throw.

KG: THERE WAS NO BEDPOST YOU FUCKING MORON | *THROWS BED POST*

S2: Of course sir, sorry sir!

KG: Didn't one of those retards already try to do this?

S1: [Yes sir](https://welikethestock.wtf/), but I don't think that person had the experience or knowledge on how to create and drive forward a movement Sir. If someone that did have that -

KG: SHUT UP! Onto Armour Chink 2 dufus!

2. Reporting us to the Manhattan District Attorney

S2: The DA is technically in charge of investigating White Collar crime that occurs within its bounds sir. They have previously investigated and jailed people for [defrauding investors](https://www.manhattanda.org/da-vance-announces-prison-sentence-in-multinational-6-5-million-investment-scheme/), [false loan appli cations](https://www.manhattanda.org/d-a-vance-investment-manager-charged-for-multimillion-dollar-ppploan-scam/), [bid-rigging of construction projects](https://www.manhattanda.org/d-a-vance-announces-guil ty-pleas-in-15m-bloomberg-lp-and-turner-construction-bid-rigging-and-commercial-bribery-conspiracy/).

So the big issue here Sir is that whilst it's unlikely the Manhattan DA would investigate us, if word gets out we're being investigated for criminal acts, nobody would do business with us.

Even if a decision hasn't been made, just the fact we're under investigation for criminal activities would put a black mark on our business. Nobody would take the risk of working with us as they'd no longer be protected by their organisation, they'd be personally putting themselves at risk.

3. They could report to us to the FBI for White Collar crime

S2: Sir the FBI's corporate fraud investigations team actually focuses on activities that overlap with some of the things we've done.

[To be very specific,

sir](https://www.fbi.gov/investigate/white-collar-crime#Securities-and%20Commodities%20Fraud):

* "Falsification of financial information

- * False accounting entries and/or misrepresentations of financial condition;
- * Fraudulent trades designed to inflate profits or hide losses; and
- * Illicit transactions designed to evade regulatory oversight.
- * Fraud in connection with an otherwise legitimately operated mutual hedge fund
- * Late trading;
- * Certain market timing schemes; and
- * Falsification of net asset values.
- * Securities and Commodities Fraud
- * Broker embezzlement: and
- * Market manipulation"

It's really scary sir. I actually pee my bed thinking about it.

They could nail us for:

- * [That stuff we did in Brazil to hide our short positions](https://www.reddit.com/r/Superstonk/comments/p4 w9hq/january_gme_otc_trades_increased_by_32_last_week/) [that apes annoyingly discovered](https://www.reddit.com/r/Superstonk/comments/otn94a/can_anyone_explain_the_over_one_million_put/h6x2h7a/?utm_source=share&utm;_medium=web2x&context;=3)
- * [The daily abusive naked shorting of the stock to stop its momentum](https://prospect.org/power/gamestop-mess-exposes-the-naked-short-selling-scam/)
- * [Vlad's backdating of OTC trades](https://www.reddit.com/r/Superstonk/comments/p4w9hq/january_gme _otc_trades_increased_by_32_last_week/) which technically counts as [cooking

books](https://www.investopedia.com/articles/fundamental-analysis/financial-statement-manipulation.asp)

- * Getting Vlad to remove the buy button
- * [Moving some of the securities we sold off of our

books](https://sec.report/Document/0001616344-21-000004/) into other countries

- * Coordinating with MSM to spread FUD about certain stocks
- * [Deliberately not using the exchange systems

properly](https://teddit.net/r/Superstonk/comments/n7ap6e/citadels_clear_error/gxbuas5/)

- * [Not filing compliance forms properly](https://www.reddit.com/r/Superstonk/comments/pfmlkx/dark_pool_guy_here_with_a_reminder_for_citadel/)
- * [The offshore loopholes we complained about and then took advantage of](https://www.reddit.com/r/Superstonk/comments/pfetpl/update_found_a_document_basically_proving_my_last/)
- * And more sir

KG: HOW ARE THEY GONNA GET ME FOR VLAD REMOVING THE BUY BUTTON?

S1: Well sir... if I may.

KG: No YOU FUCKING MAY NOT. Haven't they already tried reporting us several times over?

- S2: Right they have Mr Griffin! But it's still a risk now, what if one of them has a personal connection to the FBI and can get it looked at more seriously? Or if they get in touch with a local congressman or Senator asking them to ask the FBI to look into it. Whilst the FBI doesn't have a legal obligation to look into it, there certainly would be a lot of pressure to investigate us, Sir.
- # 4. They could take this straight to the President of the United States
- S2: They could write to the [Whitehouse](https://www.whitehouse.gov/get-involved/write-or-call/) compelling them to take action.
- KG: WTF is that simp Biden gonna do about anything!?!?
- S2: Well sir, writing to the [Whitehouse](https://www.quora.com/lf-l-write-a-letter-to-the-president-and-mail -it-to-the-White-House-where-will-it-go) helps them know where people stand on a subject. When they know people stand on a subject, they're more inclined to act on it or at the very least will begin asking the relevant counterparts questions about what's being done. In our case, that'd be GG and the new guy at the

CTFC the chimps recently discovered.

A simple phone call from the President of the United States of America, the most powerful nation on the planet, and thus the most powerful person in the world asking: *"Hey, what are we doing to stop Wall St. from screwing over the little guy this time around?"* would embolden GG to be more ambitious with their timelines.

KG: Haven't we bought off the CTFC Guy at least????? | *Looks around at room*

S1: We literally bought the CTFC Guy, at least the old one. He's working for us now and is in the process of schmoozing CTFC Guy #2 as we speak. Let's just say, the CTFC isn't a concern for us.

5. They could start a change.org petition

S2: These petitions rarely enact policy level change unless they're led by a Think Tank or other form of Activist Group.

The bigger issue is it can be used to create a movement Sir and put our name in the spotlight more so. Additionally, if politicians see that so many people support a cause, they'll be reluctant to go against it.

KG: Can't we start a petition that says Fuck Retail?

S1: Sir, we're already fucking retail.

KG: GOOD! Fuck them harder!

S1: Yes sir. We will.

S2: *Looks over at Shill Team* | HEY GUYS, TURN UP THE DARK POOL USAGE BY 500% WILL YA, WE NEED TO FUCK THOSE MONKEHS HARDER

Anyways, a recent petition sir demanded that Biden [select a Native American to run the Department of the Interior](https://www.change.org/p/select-a-native-american-to-run-the-department-of-the-interior) \- and it worked! He chose [Deb Haaland](https://www.bbc.co.uk/news/world-us-canada-56421097) to run the Dol.

KG: Maybe we should start a petition to demand that Sloppy Joe chooses a monkey to run the SEC.

S2: Well sir, they do have Gary Gensler, he fits the bill guite well already

KG: Ha ha ha ha ha ha. Right, what next?!

6. They could work with a PR Agency and start a media campaign against us

S2: Many people don't realise this, but the media [company AdBusters](https://en.wikipedia.org/wiki/Adbusters) were actually the one who started the whole Occupy Wall St. movement back in 2011.

KG: Was that the one where those homeless guys wouldn't get off my parking lot?

S1: Yes sir, that one.

KG: Well that did nothing. So why the fuck should I worry about another one?

S2: Well sir, Occupy Wall St. was largely a group of retards that really didn't know what they were talking about and had no real agenda or plans.

Unfortunately these apes sir, they kind of understand the financial market quite well. They regularly produce 'DD' that exposes our activities in broad daylight, they do have an agenda too. What they're lacking is a plan. Heaven forbid they figure one out.

A media campaign against us could bring again a lot of unwanted attention, similar to what happened in Q1 of 2021. But this time it could be worse, they could expose the continuous abusive naked shorting we've done over the past year, even more, demand political change today not tomorrow, and even make us poisonous for politicians to go near.

[Can you imagine what'd happen if we had those memes and digital posters plastered on billboards all around the country sir?](https://preview.redd.it/jukbc87laol71.jpg?width=960&format;=pjpg&auto;=webp&s ;=cd9f0ab03e44e694846fafc557703735f0f5d04c)

[Or what about those 'Financial Terrorists' playing cards?](https://preview.redd.it/gxo6vvy1bol71.png?widt h=960&format;=png&auto;=webp&s;=8fa5a51d5b70953966db442c7be0e085b6a611ff)

S1: If I may chime in here Sir, in particular, I worry about the label of 'Financial Terrorist' - that is incredibly eloquent and damning at the same time. If it were to catch on, we'd have a hard time refuting it sir given all of the damage we've caused to the economy through our naked shorting activities.

KG: Well, if we get declared a terrorist organization maybe the U.S. starts arming us! HAHAHahah...hah..hh..anyway..what else can they do?

- #7. They could demand the GameStop board do something about the suppressed share price
- S2: Previous demands have obviously fallen on death ears due to the fact they're emailing the investorrelations@gamestop.com address which has probably been inundated with countless messages since we stopped buying back in Jan.
- KG: *Throws bedpost | * WE NEVER STOPPED BUYING YOU FUCK! WE DID NOTHING!
- S2: Sorry sir! But what about that call you made to Mr Tenev that afternoon?

KG: I WAS ASKING HIM HOW THE WEATHER WAS IN BULGARIA, THERE'S EVEN PICTORIAL EVIDENCE OF IT

[SEE, IT'S A GREAT FUCKING PICTURE!](https://preview.redd.it/cpm523qlcol71.jpg?width=552&format; =pjpg&auto;=webp&s;=4efe209e1225a96f408dffdce2029842d356b66f)

S2: Oh right duh! My bad Mr Griffin!

Anyways Sir, the Investor Relations team is probably just on auto-pilot mode right now. They're probably not communicating with apes out of concern about being accused of manipulating the stock. It makes sense, they're playing it really smart here.

But there are certain demands the wonky monkeys could make if they pooled together and formed some sort of pseudo activist investor group. In doing so they could demand GameStop increase value for its shareholders through activities that allow it to discover what its "real price" is.

The two things demand are:

* GameStop move their ticker away from the NYSE to an exchange in a market where naked short selling is prohibited - i.e. [like the E.U.](https://eur-lex.europa.eu/legal-content/EN/TXT/HTML/?uri=CELEX:02012 R0236-20140917&from;=EN#tocld16) (see chapter III sir)

[or read this doc if you're in a 'Smooth Brained' mood \(warning, it downloads a PDF, it's safe I've tested it Sir\) [https://preview.redd.it/n8ac315zcol71.png?width=2784&format;=png&auto;=webp&s;=89e269960128dea8b5a00b1702f2fd3a757203e4)

* GameStop issue an NFT dividend linked to shareholders

Both of those scenarios would force us to have to cover our short positions, Sir.

KG: THERE ARE NO SHORT POSITIONS YOU MORON! WE STARTED TO COVER THEM!

S2: I know sir, I knowww. This is all hypothetical, none of its true. Just hypo-thetics.

KG: GOOD.

S2: Even if GameStop doesn't do these two things, simply opening a real dialogue between investors would be of significant concern to us. There are no legal ramifications for Board Members to discuss business strategy with Shareholders.

An easy example is to look at what happened when [Third Point Capital opened a dialogue with Disney last year sir.](https://www.scribd.com/document/479149667/Third-Point-Letter-to-Disney-October-2020) They actually took Third Point's feedback on board and [forgoed their dividend](https://deadline.com/2020/05/walt-disney-forgo-dividend-in-july-1202926782/) and now a year later, their stock price is at an ATH. Now granted, the apes WANT a dividend, what worries us isn't just the dividend sir, it's the open line of communication.

We need both these groups to remain separated, let them have their cryptic Tweets, it takes them months to figure out what they actually mean. I mean look at the whole Pets.com, Sears, and BB fiasco - 9 months after the first tweet and only now have the morons figured it out!

S1: They really are a bunch of retards sir.

KG: JUST LIKE YOUR FUCKING MOM, NOW STFU! Shill2, CONTINUE!

#8. They could file a class action against us just like they did with Robinhood

S2: We understand that [Melvin](https://www.institutionalinvestor.com/article/b1r2h6zshrklf7/Melvin-Capita I-Is-Facing-Nine-Lawsuits-Related-to-the-GameStop-Frenzy) and [Robinhood](https://uk.pcmag.com/old-personal-finance-apps/131458/robinhood-now-faces-over-30-class-action-lawsuits-for-blocking-stock-buys) are already facing lawsuits sir.

So far nobody has filed a lawsuit against us. We've gotten away with it so far.

Now, our concern is if these lawsuits are issued and we end up proceeding to court, we'll have to go through disclosure. Now that could get really messy for us if we haven't been cleaning up our records over the last few months.

KG: OUR RECORDS ARE ALWAYS CLEAN! WHY ELSE DO YOU THINK I GIVE THE TECH TEAM SO MUCH MONEY! NOT BECAUSE I LIKE THEM, BUT BECAUSE THEY CLEAN UP YOUR FUCKING MESS YOU MORON!

S2: That's great to hear Mr Griffin, super great in fact!

My concern is if that information somehow lands in the hands of Federal Authorities.

KG: How would that happen? Any information that we shared in court would have to be kept confidential!

S1: Not necessarily sir, there are num -

KG: SHUT UP KETCHUP!

WHAT'S NEXT SHILL2?!?

- # 9. They could put political pressure on us from other countries
- S2: Canada, the UK, and Europe are some of our biggest trading partners sir.

KG: What do you mean they're some of our biggest trading partners?! We run the entire financial market, they'll do whatever we tell them to do.

S2: Yes sir, we do. But -

KG: THERE IS NO WE, IT'S JUST ME, I MAKE DECISIONS AND EVERYONE ELSE FOLLOWS. STOP SAYING THERE IS A WE

S2: Understood Mr Griffin. It's not about financial trading partners sir, it's about economic trading partners. If all of a sudden some of those countries start demanding the U.S. cleans up its financial markets, then there will be renewed pressure to do something about it. So far it hasn't happened, but apes could easily demand that their Finance Ministers, Chancellors, or Foreign Diplomats take action against the U.S.

More worryingly sir, if those monkeys use the "Hey, we're gonna get rich if MOASS happens and pay a boatload of taxes that YOU'LL GET TO KEEP DEAR GOVERNMENT" card, that'll be a compelling offer for any country, especially when their budgets are tight due to Covid expenditure.

Maybe an ape has a friend who is a Member of the UK Parliament or the German Reichstag? Maybe they've got a connection to a government minister or two?

A phone call from Merkel, Boris or heck the South Korean President could really stir things up. Heaven forbid that happens sir.

[We know the bitch Boris won't grow a pair to do this Sir... but maybe Sunak calls his counterpart in the U.S.? Maybe now that Merkel is outgoing, she'll do it because she has zero risk?](https://preview.redd.it/hivtpt2idol71.jpg?width=750&format;=pjpg&auto;=webp&s;=9c20589a8f0bca52ff42ad7851b8e1748684e334)

KG: I'll just call them up first.

S2: And say what sir?

KG: To say SHUT UP!

S2: Right on sir, right on!

So yeah, this type of stuff does work Sir. In 2019 the US grounded certain Boeing planes after facing [international pressure](https://www.ft.com/content/7ad92c46-45a9-11e9-b168-96a37d002cd3) and in another instance it [allowed IP of the Covid vaccine](https://www.reuters.com/business/healthcare-pharma ceuticals/biden-says-plans-back-wto-waiver-vaccines-2021-05-05/) to be used by poorer countries.

Can you imagine what the US might do if it faced pressure from countries that [supplied it oil?](https://www.eia.gov/energyexplained/oil-and-petroleum-products/imports-and-exports.php) Maybe some of the apes from Saudi Arabia, Canada, Mexico have connections to government officials? A friend that works quite high up? They wouldn't necessarily need to demand that the U.S. lets certain stocks 'moon', maybe they'd just hint that they'd like something done about X, Y, or Z regulation.

KG: Maybe some of the fucking apes could fly and suck my fucking balls.

S1: I wouldn't put it past one of those retards sir. They've got one guy who -

KG: THEY'VE GOT ONE GUY WHO WHAT?!? FUCKED YOUR UGLY MOM?! I DOUBT IT, SHE'S THE

MOST HIDEOUS THING I'VE EVER SEEN!

Shill2, what's next?!?

10. If any of them have \$401ks they could demand that their Pension Fund withdraws the entire allocation to us

Our [Hedge Funds](https://docoh.com/company/1199937/citadel-kensington-global-strategies-fund-ltd) Mr Griffin could receive some gnarly pressure from our biggest Pension Fund clients asking to withdraw their capital.

Now we've largely kept secret who each of our financial backers are Mr Griffin, but nothing is stopping a *'wrinkle ape'* or two emailing their pension provider asking them which Hedge Funds they've allocated their capital to. If any of those were one of the [funds we own](https://docoh.com/company/1199937/citadel-kensington-global-strategies-fund-ltd) they could demand the funding be withdrawn due to alleged fraudulent activities that may be occurring.

That's a massive chink Sir. An ape contacting their pension provider saying "Hey, you're funding Citadel HF X, I have strong reason to believe they are conducting fraudulent activities and do not want my capital to be associated with such activity. I am requesting you stop using Citadel HF X immediately. You are also now aware that they are allegedly conducting fraudulent activities, if you do not change your strategy based on this information, you are making me compliant in their activity as well as being compliant yourselves."

Now, it's a bit of a stretch they'll win that argument sir. But next would be going to the press about how pension money is being used to kill great American businesses and the American *'Dream'*.

All of a sudden, the pension providers start having a PR nightmare on their hands and maybe one or two of them back away from us. It'd be foolish to think what happened with the [Hedge Funds financing GOP c andidates](https://www.washingtonpost.com/politics/2021/01/15/finance-202-public-pensions-pressure-wal l-street-fund-managers-supporting-gop-insurrectionists/) won't happen to us sir.

They don't need every single pension provider to withdraw their capital, even a few would cause some damage to our collateral holdings. It all adds up, Mr Griffin. It all adds up.

KG: Jesus, do these apes have no mercy?!?

S1: They don't sir. In the jungle, only the strongest survive.

KG: I AM THE JUNGLE GOD DAMMIT! ONLY I SURVIVE! I MADE IT OUT OF 2008, I'LL MAKE IT OUT OF THIS MONKEY BUSINESS!

[Of course you'll make it out of the jungle Sir.](https://preview.redd.it/wv9o56i8eol71.png?width=1088&for mat;=png&auto;=webp&s;=cced6d42cdcd4d55ab5beed462e8c50c49970fc3)

11. Onto congressional and or senate investigation, not hearings, but investigations

S2: There's a small sub-committee called [The Permanent Subcommittee on Investigations](https://www.hsgac.senate.gov/subcommittees/investigations/about) sir. It's largely gone unnoticed by, well pretty much everyone on the planet.

Currently, [Jon Ossof](https://www.ossoff.senate.gov/) is the Chair of the Subcommittee sir.

KG: Have we bought off Ossof?

S2: Well sir, here's the problem. Nobody can buy off Ossof. He's the guy who called out [David Perdue for being a crook because of insider trading](https://www.youtube.com/watch?v=_n1qjBUZhv4) he did at the height of Covid Sir.

[Fuck this guy Sir.](https://preview.redd.it/u7ppjzsveol71.jpg?width=641&format;=pjpg&auto;=webp&s;=1f3ab89860191f14c2d196044cc15604f2dc20b3)

KG: That asshole.

S2: Yeah sir, he is an asshole. I concur totally.

S1: Sir, if I may, our biggest worry is that Ossof is -

KG: *Glares at S1 with crossed eyes* | What's your biggest fucking worry? That Ossof is gonna WHAT?!?

S2: Well Sir, I think what S1 is trying to say is that Ossof is new. So he's looking to make a name for himself. He wants to make an impact somewhere, and this could very much be a calling card for him.

KG: WTF DOES THE PERMANENT SUBCOMMITTEE ON INVESTIGATIONS EVEN FUCKING DO IT SOUNDS LIKE THE MOST USELESS FUCKING SUBCOMMITTEE YOU COULD POSSIBLY ASK FOR

S1: Sir if you read this [document

here](https://www.hsgac.senate.gov/imo/media/doc/PSIJurisdiction19-20.pdf) you'll see that -:

KG: *Launches bedpost |* NOBODY ASKED YOU WHAT IT FUCKING DOES! NOBODY NOBODY!

S2: Sir, long story short, it's got jurisdiction over how government departments operate and whether they're obeying and enforcing laws properly, that'd affect our boys, I mean, the CTFC. Additionally, they can investigate:

[It looks like he's got a lot of scope to snoop around Sir.](https://preview.redd.it/rqmb0k05fol71.png?width= 962&format;=png&auto;=webp&s;=7d3ccd787102d8e8b31f1c0c5611be78c8417a9f)

KG: Someone buy that mother fucker off this very moment. I don't care if you have to write him a cheque with 10 zeroes or send him some fucking Buttermilk Pie. | *Bedpost shakes in his hand*

S1: Right away sir.

KG: What's fucking next you clowns?!?

12. One of your family members could report you Sir

KG: I have no family. Next.

13. They could report us to the DOJ via the U.S. Attorney's Office for the Southern District of New York or a Task Force

S2: The DOJ lately has [been on a bull run of itself sir](https://www.justice.gov/usao-sdny/prosecuting-fraud).

KG: Are we managing their funds for them?

S2: No no no Mr Griffinnnn, I mean that they're taking names and kicking ass Sir.

KG: GOOD! IT'S ABOUT TIME THEY KICKED RETAIL OUT THE DOOR!

S2: Well Sir, here's the thing... they're kinda screwing people like us over.

KG: Wait what, what'd those fools even try to get us for?

S2: Well sir, it'd be the same list the FBI could try to get us for.

Additionally to this, they could:

- * [Hit us for paying those Reddit shills](https://www.reddit.com/r/Superstonk/comments/nz2vmw/shills_are _sending_extremely_abusive_private/)
 * [Investigate if we and Mr. Tenev truly did commit perjury during the hearings](https://www.reddit.com/r/S
- * [Investigate if we and Mr. Tenev truly did commit perjury during the hearings](https://www.reddit.com/r/Superstonk/comments/p7elma/vlad_tenevs_call_with_the_nscc_shutting_off_the/)
- * [Fine us massively for antitrust violations](https://twitter.com/SenWarren/status/1369410429584281612? ref_src=twsrc%5Etfw%7Ctwcamp%5Etweetembed%7Ctwterm%5E1369410429584281612%7Ctwgr%5E%7Ctwcon%5Es1_&ref;_url=https%3A%2F%2Fmarketrealist.com%2Fp%2Fdoes-citadel-own-robinhood%2F)

S2: The antitrust and monopolistic behaviour violations are a real worry sir. Considering we control over 50% of the liquidity for GameStop by using our connections to make sure orders are routed to our MM facilities allowing us to suppress the price.

They could report us pretty easily sir by mailing [this form](https://www.justice.gov/usao-sdny/file/839316/download) into the U.S. [State Attorney's](https://www.justice.gov/usao-sdny/report-crime) office.

Their [Open Government program](https://www.justice.gov/open) could ask that our friends, I mean, THE CTFC allows swaps etc to be reported more regularly. All an ape would have to do is file a complaint about the matter to the DOJ.

[Enough pressure aimed at the CTFC could give our boy there some sleepless nights](https://preview.red d.it/vnxolgqefol71.png?width=1083&format;=png&auto;=webp&s;=94484dc3cc63bc2bc2e6de66800e589b efb5ca23)

There's also a Task Force on Market Integrity and Consumer Fraud sir. Specifically designed to protect consumers – particularly the elderly, service members, and veterans. [That Task Force has a fairly wide remit sir, which includes](https://www.govinfo.gov/content/pkg/FR-2018-07-16/pdf/2018-15299.pdf):

[It can't harm us directly, but indirectly...](https://preview.redd.it/j2mi5kcpfol71.png?width=1058&format;=png&auto;=webp&s;=06ce846a71d8017100041fb26a85c5023b139cb5)

Apes that fit any of the aforementioned criteria could actually get in touch with their congressional representatives and ask them to report issues relating to us to that DOJ Task Force.

S1: Sir, if that were to happen -

KG: *Stares blankly at Shill1*

S1: Yes sir, I'll STFU sir.

KG: *Keeps staring at Shill1*

14. An internal whistleblower could report us Sir

S2: One of our staff could easily report us Sir. They have a legal right and some serious whistleblower protections.

KG: Nobody is retarded enough to do that.

S2: We can't discount this so easily Sir. Maybe someone we've overlooked for a promotion? Someone that we've pissed off? Someone that has a wife and kids and a lot to lose if we go to prison? Technically we're all complicit in this, so it just requires one of us to blow the whistle to bring everyone else down. If that were to happen, we could all report on each other to protect ourselves.

KG: Nobody. Is. Retarded. Enough. To. Do. That.

S1: *Begins to daydream*

[S1: That's a lot of money...](https://preview.redd.it/rjr2q2wyfol71.png?width=1027&format;=png&auto;=webp&s;=07e7b4c66627eb51c2fdef9ed291535dd04c902d)

S2: Well that's everything Sir.

KG: I'm curious, these apes, how much will it cost to buy those fucking apes off?!?

S1: Well sir, back in January we could've bought them off for about \$1,000 a share, now though sir they want -

KG: I DON'T FUCKING CARE WHAT THEY WANT! I NEVER FUCKING ASKED YOU WHAT THEY WANTED! JUST SHUT UP BOTH OF YOU! SHUT UP AND TELL ME HOW WE'RE GONNA KEEP THESE APES FROM RISING UP AGAINST US!!

Well sir, Phase 3, Planning the counterattack was actually relatively easy believe it or not.

S2: See these 'monkehs', well sir, they're not all bright.

We are gonna follow 3 basic tenets that kept them from banding together:

FIRST: Anytime a *'fellow ape'* suggests they should band together to demand change, we'll have our Shill's Jill n Bill say that 'THERE IS NO WE', 'They'll delist the stock', or the classic 'They'll claim Market Manipulation'. I doubt those dumbasses can tell the difference between coordinating to demand better regulation vs coordinating to pump up a stock.

SECOND: Anytime an ape wants politicians or government departments, i.e. the SEC to do something, we'll just throw out a barrage of comments saying "ALL POLITICIANS ARE CORRUPT", "THE SEC IS COMPLICIT", or even better, use the ole Left V Right tactic against them. Their general distrust of government will allow us to continue to operate in the shadows and in public however we want in whatever capacity we want.

THIRD: Distract them with shiny memes, aeroplanes, hopium and our own 'DD'. That shit is more addictive than meth for those monkeys Sir. We think we can hide great information by just posting an endless amount on the sub. Apes will miss out on great DD that could have exposed this thing so much sooner because we've overloaded them with information.

That's it.

Those 3 tenets we believe will destroy any attempt at coordination whatsoever.

KG: You fucks better be right.

S2: I have full confidence in our strategy sir. Give us 8-months and we'll have all this taken care of for you!

`8 months later.`

KG: Well done you stooges! Your plan worked! Finally, I can walk the streets and laugh at homeless people again without being harassed!

S2: Thank you, Mr Griffin! Those suckers had no idea banding together for a common cause was their constitutional right. Heck nobody even asked, 'wait, how is this any different than a corporate lobbying government or a group of companies lobbying government via a Trade Body Association???'

We've gotten away with it because they just didn't understand. Their naivety and emotional reactions are

so easy to control. Our guys have SO MUCH fun Mr Griffin, it was like playing Sims but with monkeys hahaha.

Because these chimps never united, they could never put up a real fight.

So we got away with meeting with our boys 'n' girls at the SEC and CTFC convincing them to change regulations to favour us.

We got away with getting our favourite politicians to vote against any reform of the financial markets.

We've gotten away with forcing every broker to route through our MM facilities letting us send trades OTC only.

They continued to '*HODL'* their beautiful stock and it continued to do nothing but trade sideways whilst we made money elsewhere. Essentially the meme stocks were quarantined from the rest of our portfolio and we minimised the damage they could cause to us.

Because of that, we could essentially hold off 'MOASS' forever. Apes eventually got tired and started selling off their GME one by one.

God bless American *cronyism,* I mean *capitalism* sir!

KG: Burn it all.

S2: What Mr Griffin? You want me to burn all of our documentation? Why?

KG: I don't need to give you a fucking reason why.

S2: Oh, okay, right away sir!

BOYS, BURN AND MICROWAVE IT ALL! YEAH, ALL OF IT! NOW!

\-----

Hi everyone,

This is my second 'what if' scenario post. I went to quite a lot of depth with this one because to be quite frank, I'm disappointed we haven't held these fuckers to account.

Naturally, why the Hell should we? It's not OUR job to make the hedgies obey the fucking law. It's the stupid SECs, FBI's, DOJ's job.

But guess what, it IS our job to make sure the government is WORKING FOR US. And working for us EFFICIENTLY more importantly.

Exposing their activities, memes, and talking on Reddit and Twitter is a start. But it can't end there.

We as a community need to coordinate actions on HOW WE HOLD THE SEC, FBI, DOJ, POLITICIANS, AND OTHER REGULATORS ACCOUNTABLE!

You might not like any of them. You might not trust any of them. And that's completely fine.

But that doesn't mean you can't make them work for you! You ABSOLUTELY FUCKING CAN and that's the whole point of government, TO SERVE THE PUBLIC.

So let's fucking demand for FAIR AND EQUAL MARKETS!

LET'S DEMAND FOR AN END TO WALL ST's MALCPRACTICES!

LET'S DEMAND AN END TO REVOLVING DOORS!

LET'S DEMAND FOR AN END TO YELLEN'S PIGGYBANK BEING TOPPED UP BY SHITADEL

LET'S DEMAND THAT THEY FINALLY BE HELD TO ACCOUNT AND DON'T GET AWAY WITH COMMITTING CRIMES!!!!!!!

[If it isn't us, then who?](https://preview.redd.it/4bkdlk01qol71.jpg?width=648&format;=pjpg&auto;=webp&s;=c3eb80a110f005294f76db7be392c91b9b3576f6)

LET'S FUCKING RISE UP AND DO OUR FUCKING JOBS BY DEMANDING THE GOVERNMENT FUCKING WORKS FOR US!

Over the coming weeks, I'm going to be exploring how to do best do some of the actions I wrote in my story.

Any apes who want to help out and have any of the following skills, DM me plz:

- \- Photoshop/Illustrator (for digital and print-ready posters)
- \- Legalease
- \- Copywriting (formal letters + funny ads!)
- \- Research (need to gather case studies!)
- \- Web Development/Software engineering (will explain when we chat!)
- \- Lobbying (Yes. Lobbying. There's bound to be one ape here that does this as a day job!)
- \- Anything else you think would be helpful to the cause!
- P.S. Special shout out to u/tikkymykk for helping me with this DD! Honestly could not have done it without him!
- P.P.S. None of this is to say MOASS is off the table. It isn't. It's just to say that we need to focus on fixing the market through action.
