Final Thoughts

Unless you understand how the GME trade works (there is always a technical driver no matter the fundamentals, which appears to be a combination of Fibonacci-retracements and MAs) I would stay away from GME. GME is a trading mechanism at best (losing lottery-ticket at worst), not a buy & hold investment.

recent history and I found that in the last six months, it has moved just 0.9% lower. But this doesn't tell the whole story because it has dropped 7.2% year to date, -5.1% in the last three months and appreciated

6.0% in the next month. This cooms to indicate that
