## How to Start a Petition on the White House Website

Co-authored by wikiHow Staff Last Updated: July 8, 2022

The President of the United States serves all citizens. Accordingly, you should make your voice heard on important issues of the day. One great way to increase visibility of an issue is to create a petition on the White House's "We the People" website. You will need to create an account, which is easy. Then you can create your petition and get people to sign in support. At least 100,000 people need to sign the petition within 30 days if you want the White House to respond. You must be at least 13 years of age to sign or start a petition.<sup>[1]</sup>
