presages an IPO for Citadel, but no one seems to think that's happening anytime soon, and why would it?

For retail investors blinded by their animus towards "Kenny G," we offer this final piece of advice: When you look at Griffin and see the emperor from "Star Wars," trying to crush the noble rebellion, don't interpret this investment as an opportunity to attack a weakened emperor on an uncompleted Death Star.

See it for what it is: a Death Star that just got a little bigger and whole lot more operational.

When it's capable of blowing up bulge-bracket banks with the force of its own power, that's when it will go public.
