I can see a link that may indicate that GameStop do plan to release an NFT marketplace on Loopring.

I stumbled across the ENS domain **gamestop.loopring.eth**

https://preview.redd.it/9f6bok5l5vk71.png?width=823&format;=png&auto;=webp&s;=f44dc35953e5f028d9c87fcc8822dc76669e0d41

The controller of this domain is the contract **0x269635DF1C17f24e15E27786f0C28C3DD409B3D2**

[0x269635df1c17f24e15e27786f0c28c3dd409b3d2
(etherscan.io)](https://etherscan.io/address/0x269635df1c17f24e15e27786f0c28c3dd409b3d2)

The only transaction sent to this smart contract wallet is from [**0x381636d0e4ed0fa6acf07d8fd821909fb63c0d10**](https://etherscan.io/address/0x381636d0e4ed0fa6acf07d8fd821909fb63c0d10) **(Owned by Matt Finestone, Head of Blockchain at Gamestop)** on 27th May 2021. (Well after he moved from Loopring to GameStop)

https://preview.redd.it/ezk4cnjg7vk71.png?width=1256&format;=png&auto;=webp&s;=34bc5398d3c3ae854290b6dc0b494fddde7c5c02

To verify that this is GameStops Head of Blockchain we can see that this ETH address owns the domain Finestone.eth also. (This has been verified on the sub multiple times)

Loopring today upgraded the protocol to version 3.6.2.Bringing new functionality - NFT minting, trading, and transfers,

Source: https://twitter.com/loopringorg/status/1432316108896415747

Loopring's CEO said the following at EDCON21 just two days ago:

"Some people ask me a question whether Loopring will launch our own marketplace. The answer is no. We don't have a plan to launch our own NFT marketplace, but ***we are working with a premium owner to make sure they can launch their marketplace successfully and very soon****, probably in Q4 and with a lot of other stuff."*

I will leave you with loopring's tweet from yesterday.

https://preview.redd.it/6co2lqspavk71.png?width=596&format;=png&auto;=webp&s;=77752bf9eda92921d3cadd946124c99dc7257ced

Man I'm Jacked.

\-- EDIT--

There are a couple of people saying that we have no proof Matt is actually Head of Blockchain at GameStop. I have replied in the comments but I want to include it here too.

We do know the following:

https://nft.gamestop.com published the GME NFT controller contract.

https://etherscan.io/address/0x13374200c29C757FDCc72F15Da98fb94f286d71e

From there we can see that one GameStop NFT was minted and assigned to https://etherscan.io/address/0x10b16eede03cf73cbf44e4bfffa3e6bff36f1fad

0x10b16eede03cf73cbf44e4bfffa3e6bff36f1fad is a Gnosis Safe multisig wallet.

We can see the owners of the multisig wallet below

https://etherscan.io/address/0x10b16eede03cf73cbf44e4bfffa3e6bff36f1fad#readProxyContract

0x61a80d1792340c2a03e739202980e69467459a8b is one of the owners.

https://etherscan.io/address/0x61a80d1792340c2a03e739202980e69467459a8b

From here we can see transactions TO and FROM 0x381636d0e4ed0fa6acf07d8fd821909fb63c0d10 (Matt Finestone)

https://etherscan.io/address/0x381636d0e4ed0fa6acf07d8fd821909fb63c0d10

Obviously enough, nothing can stop Matt Finestone sending ETH to one of the multisig wallet owners. But for one of the owners to send ETH to him? I'm not sure why they would if he was a scammer.

Here's the transaction from one of the owners to Matt.

https://etherscan.io/tx/0x4c20546d84219e47cd4b7215e887ce6828be11b01086f6671b4088a3837ff6ad

That transaction happened on the following date:

96 days 15 hrs ago (May-27-2021 10:38:49 PM +UTC)

which is literally 10 minutes before the transaction from Matts wallet to the Loopring contract.

https://etherscan.io/tx/0x60a10f5eb107f3d6db85646ff773b44b004db35637c080c9c9c6cb31e64833bd

96 days 15 hrs ago (May-27-2021 10:49:03 PM +UTC)

Its not confirmation from GameStop themselves but it is a strong indicator that he's legit.
