Loopring will upgrade our relayer from 10:30 am to 5:00 pm (UTC+8) on September 1, and upgrade the protocol to version 3.6.2.

This upgrade will support NFT minting, trading, and transfers, directly on L2, and add NFT- related API interfaces.

In addition, the next round's liquidity mining campaign will be delayed by one week.

Please follow Loopring Twitter for the restart time and updates. Stay tuned!
