I'm an ape since 2020. Went through all the shit everyone went through. Now i discovered the beauty of minting NFT's on Loopring L2.

Buy, collect and trade your favorite Wallstreet Jerk (Financial Terrorist) until they finally get locked away. My recommendation is: No cell, no sell, but you do you!

These animated gifs come with a resolution of 600*600px, pouring rain, flickering light and an iconic saying of the respective fool. They are minted with a 10% royalty percentage, so that these bloodsucking human beings get forced to do something good to the world, at least in the digital space. Here they are locked away forever in GameStop prison. The "normal" ones are minted 5 times, the specials 2 times. No more will be produced. No naked minting in dark pools.

(The collection was known as "Financial Terrorists", but that didn't resonate well with other communities)

If you buy at least one Wallstreet Jerk, you'll get the next ones for free.

Use the order form to get more information about pricing and what is done with the proceeds of this collection.
