Hello apes!

This is a small project I started for myself a while back. I see there are some other projects in the works that are much more sophisticated (unlike Chicago) which are just amazing so before I get to my small effort I just want to give some shout outs. If you haven't already read these posts I recommend you take a look.

[DATES, DD & DATA all in one place: ■MoonTimers v1.1 update with some new features for you!](https://www.reddit.com/r/Superstonk/comments/ooszki/dates_dd_data_all_in_one_place_moontimers_v11/?utm_source=share&utm;_medium=ios_app&utm;_name=iossmf) by u/Jaylee9000

With that said, what I have done is much more basic. Currently I have archived over 180 posts that are all GME related and mostly DD. This is by no means a full backup, but the most important information is now archived in both the **Wayback Machine** platform and **archive.today** platform. All of this is included in the following spreadsheet.

■GME Archive Spreadsheet■

Google Sheets: https://docs.google.com/spreadsheets/d/1-9GVL2j7eAHtvCU3SyQvA6ZbLrYE3MFsNidM9UCn9v4/edit?usp=sharing

- This has been a pretty manual process so if you notice any errors such as dead links or typos please let me know and I will correct them

- I have archived several DD backup posts and have archived links to the PDF documents where relevant

- I may continue to add to this project in which case I will provide an updated list. If I continue the project I am open to suggestions of posts to include into the archive list or if any posts have been debunked I am open to removing them to avoid misinformation

- One consideration I have for this project is to begin transposing more DD into PDF format as was done by u/atobitt with [HOC I, II, & III](https://www.reddit.com/r/Superstonk/comments/nm83eb/a_house_of_cards_parts_i_ii_iii_in_pdf/) as well as by u/feltdumbmightdelete with [The Bigger Short by Criand](https://www.reddit.com/r/Superstonk/comments/o1fq9r/second_try_hi_i_made_a_pdf_of_criands_dd_the/?utm_source=share&utm;_medium=ios_app&utm;_name=iossmf) but I have not yet found the time to dedicate to this task so no promises

- I have also cross-posted each of these posts with the backup links to a new sub dedicated to archiving GME posts but not sure if I can share the sub here. If you're interested you can find the archive sub on my post and comment history but it just mirrors what is on the spreadsheet

I will be looking for an easier method of keeping the list updated and shareable so if I find a better solution I will come back and update. If I continue to add to the list I will re-post with the updates. I just wanted to share in case anyone finds it useful.

That's all. I hope it helps and I will see you all on the moon ■■■
