This is to expand on u/motu147 's backup phone number [post](https://www.reddit.com/r/Superstonk/comments/oqv20s/know_your_brokerages_phone_number_plan_b_c_and_d/?utm_source=share&utm;_medium=ios_app&utm;_name=iossmf) specifically for Fidelity customers.

Here are some links so you can prep your call notes/conversions in case of outage emergency. It does require username or social security number and account password (converted to number on username and password). Personally, I'm doing the conversions beforehand because I know how finicky automated phone systems can be, and it's easier knowing the phone tree options so you don't have to listen to every single prompt if you're in a hurry.
