From a DM request by u/Battlevilt888 (not having enough credits) asking me if I could share his dream here... So here it comes, it's a dream, not sure what chemicals u/Battlevilt888 has been using, it's a little fuzzy...

< dream mode on>

I was Captain Jack Sparrow and I was accompanied by Shrek and Donkey in this dream i had the Power to Fulfill all my wishes so i started looting ships and Dungeons but strangely I ended up losing the power... because I probably had a number of possible wishes to come true so i played the ocarina of time and i went back to the first moments that i use my wishes, to better use them later

So I wished go to the real world after i have stealing a car like in GTA with shrek and a donkey ■ and I drove straight to the Sec going up the building I saw Ken griffin still eating his jar of mayo with a Spoon

I don't care, I want to see Gary Gensler

So with my wishes I forced him to answer me some question

the 1st,what games do you like to play? he responded to me Uno Solitaire and a strange game called: The Beater

I don't remember the next question but he answered me JP morgan prepared 4 Quadrillion for the Crash

The fun Begin I have tap on Google:Game The Beater

I found a game called Game Room The game have Success called The Beater You need to got 9 medal You need to purchase and Play 3 different game for this (Meaning:Gme,BBY,Am c)?

For the JP Morgan meaning I have Found a 2010 article Who's Talk about a 4 quadrillion naked short position JP have a 4 quadrillion naked short position on Gme,am c and BBY?

And before a go to the Sec (in the dream) I hav wish to know the Moa$$ Days Its 25 August

Secret link:my dream is the 16 August You add 9 medal(the Beater success) to 16 = 25 August = Moa$$ Days ■■■
